

Junior Safety at Sea Seminar June 22, 2019

In partnership with the Storm Trysail Foundation, and inspired by safety programs for ocean racers, the Junior Safety at Sea Seminar is carefully designed for a teen audience. The program stresses fun, hands-on practice, communication, teamwork, and the anticipation of trouble before it happens.

This day-long session includes intensive on-the-water practice of skills such as crew overboard recovery with onshore lectures and demonstrations. For young sailors with little or no big boat experience, this seminar provides an exciting and confidence-building introduction to the thrill of big boat sailing.

The course includes core elements that every sailor should know taught by instructors specially trained by Storm Trysail. Topics include:

- Crew Overboard Prevention and Recovery
- Radio Communications^[SEP]
- Fire Suppression^[SEP]
- Flare Use
- Life Raft Deployment, Righting, and Boarding
- Weather Attentiveness and Storm Preparation
- Big Boat Crew Roles & Basic Maneuvers
- Shortening Sail & Storm Sails
- Safety Equipment

Don't miss this fun on-the-water training and interactive demonstrations that teach critical safety skills to youth.
